

# Your Instant EYEWITNESS™

## APPREHENSIONS

The Instant Eyewitness means fast response to catch intruders- in contrast to DVRs used to identify an intruder after an incident occurs.

## VIDEO SECURITY UNPLUGGED

AFFORDABLE  
PORTABLE  
ANYWHERE

### EMPOWER Your Surveillance

**Videofied™** enhances sophisticated surveillance systems, acting as "remote sentries" that can be located anywhere, providing instant video alerts of intrusions. Once alerted, site managers or guard staff can use the power of their megapixel pan/tilt/zoom cameras and surveillance system to coordinate incident response.

Cameras Mounted Anywhere

**Portable Remote Sentries** The portable battery powered P-Cam (PIR motion sensor with integrated camera and illuminators) can be installed anywhere; often mounted on portable stands (pipe in a concrete-filled bucket) that can be picked up and moved around as the situation demands- no trenching, no wires. The integrated PIR motion sensor detects intruders in storms and blizzards, ignoring the rain or snow.
